CONFIDENTIAL FORENSIC ANALYSIS

Dynamic Triage Assessment

Autonomous Forensic Report

PIPELINE	Automated Triage Pipeline
CASE ID	VIGIA-REAL-006
PREPARED BY	Autonomous DFIR Agent
REPORT DATE	2026-06-14 UTC

■ **CONFIDENTIAL**

Report generated 2026-06-14

01 Executive Summary

The incident involved a targeted spear-phishing attack against the CFO of M57.Biz. The attacker spoofed the President's email address (alison@m57.biz) and manipulated the Reply-To header to redirect sensitive employee data to an external Gmail account (tuckergorge@gmail.com). The Return-Path (simsong@xy.dreamhostps.com) indicates the relay infrastructure used for the spoofed message. The attack successfully resulted in the exfiltration of unencrypted confidential documents containing SSNs and salary information.

Null Hypothesis Evaluation: The null hypothesis is that the email exchange was a legitimate business request from the President. This is refuted by the forensic evidence: the Return-Path (simsong@xy.dreamhostps.com) does not match the From address, and the Reply-To header was explicitly altered to an external, non-corporate address.

Identified MITRE ATT&CK Techniques: T1566.002, T1567

MALICIOUS
ASSESSED INTENT VERDICT

Extracted Findings Matrix

ARTIFACT / FINDING	FORENSIC OBSERVATION	RISK & PRIORITY	CONFIDENCE	RECOMMENDATION / VALIDATION
Victim Email	Targeted CFO account used to receive the phishing email. INDICATORS OF COMPROMISE: jean@m57.biz	Risk: 80/100 HIGH PRIORITY	100	Review mailbox access logs for unauthorized logins.
Spoofed Actor Email	Spoofed identity of the company President used to deceive the CFO. INDICATORS OF COMPROMISE: alison@m57.biz	Risk: 90/100 HIGH PRIORITY	100	Verify email headers for SPF/DKIM/DMARC failures.
Exfiltration Destination	External email address used as the Reply-To target for data exfiltration. INDICATORS OF COMPROMISE: tuckergorge@gmail.com	Risk: 95/100 HIGH PRIORITY	100	Block domain/address and investigate associated activity.
Malicious Return-Path	Return-Path indicating the relay infrastructure used for the spoofed email. INDICATORS OF COMPROMISE: simsong@xy.dreamhostps.com dreamhostps.com	Risk: 85/100 HIGH PRIORITY	90	Investigate infrastructure associated with dreamhostps.com.
Exfiltrated Data File	Unencrypted file created on Desktop and sent to attacker.	Risk: 90/100 HIGH PRIORITY	90	Audit file access logs and DLP alerts.
Domain	Recovered IOC. INDICATORS OF COMPROMISE: rcstatus.htm	Risk: 50/100 MEDIUM PRIORITY	100	Corroborate telemetry.

This report was produced automatically via an LLM-driven forensic pipeline. Findings are based strictly on evidence present in the provided target at the time of analysis.
